Interactive comment on “Reducing sediment concentration and soil loss using organic and inorganic amendments at plot scale” by S. H. R. Sadeghi et al.

A. Cerdà (Referee)

artemio.cerda@uv.es

Received and published: 22 March 2015

Dear author, Your paper was found to be acceptable for publications but I suggest that you will improve the following. You must show the reader that there is a serious problem due to the soil erosion and the land degradation in the world that affect mainly the agriculture land Please highlight that your research on mulch can help the forest and agriculture management to be more sustainable See below some citation that can help you Cerdà, A., Flanagan, D.C., le Bissonnais, Y., Boardman, J. 2009. Soil Erosion and Agriculture. Soil and Tillage Research, 107–108. doi:10.1016/j.still.2009.10.006 Cerdà, A., Giménez-Morera, A., Bodí, M.B. 2009. Soil and water losses from new

Mandal, D., Sharda, V. N. 2013. Appraisal of soil erosion risk in the Eastern Himalayan region of India for soil conservation planning. *Land Degradation & Development*, 24: 430-437. DOI 10.1002/ldr.1139 Xu, Q. X., Wang, T. W., CAI, C. F., Li, Z.X., SHI, Z. H. 2012. Effects of soil conservation on soil properties of citrus orchards in the Three-Gorges Area, China. *Land Degradation & Development*, 23: 34 -42. DOI 10.1002/ldr.1045

You must highlight the importance of the multidisciplinary view of the soil as key part of the Earth System Use this idea in the introduction Brevik, Å. C., Cerdà, Å., Mataix-Solera, Å., Pereg, Å., Quinton, Å. N., Six, Å., and Van Å. Oost, Å.: The interdisciplinary nature of SOIL, *SOIL*, 1, 117-129, doi:10.5194/soil-1-117-2015, 2015.

Also highlight the importance and accuracy of your rainfall simulation approach Moreno-Ramón, Å. H., Quizembe, Å. S. Å., and Ibáñez-Asensio, Å. S.: Coffee husk mulch on soil erosion and runoff: experiences under rainfall simulation experiment, *Solid Earth*, 5, 851-862, doi:10.5194/se-5-851-2014, 2014. Gabarrón-Galeote, M. A., Martínez-Murillo, J. F., Quesada, M. A., and Ruiz-Sinoga, J. D.: Seasonal changes in
